INCIDENT MANAGEMENT SITUATION REPORT SATURDAY, JULY 17, 1999 - 0900 MDT NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Moderate initial attack activity was reported in some Areas. Large fire activity increased in the Northern Rockies Area. Good progress was made on the existing large fires in the Western Great Basin Area. In addition to the fires reported below in Alaska's large fire narratives, the state has 61 fires burning in limited and modified protection areas for a total of 784,763 acres. The National Interagency Coordination Center mobilized a caterer, helicopter and miscellaneous overhead. High to extreme fire indices were reported in Alaska, Oregon, Washington, California, Idaho, Utah, Nevada and Arizona.

ALASKA LARGE FIRES:

KINK, Northern Field Office, BLM. This fire was started by lightning on June 12 and is currently burning three miles north of Chicken, Alaska. Reduced acreage is due to accurate mapping.

ROUNDABOUT MOUNTAIN, Koyukuk NWR, FWS. This lightning-ignited fire started ten miles south of Huslia, Alaska. Precipitation and increased relative humidity have decreased fire activity. Crews are moping up the spot fire on the east bank of the Koyukuk River.

JACKSON, Doyon Native Corporation, Alaska State. This fire is burning in black spruce ten miles east of Tanana, Alaska. Crews have secured part of the west flank.

PITCHUK, Doyon Native Corporation, Alaska State. This fire is seven miles southwest of Bettles, Alaska. Crews continue to mop up.

MARSHALL CREEK, Alaska State. This fire was started by lightning on July 2, and is eight miles southwest of Rampart, Alaska. Higher relative humidity and cloud cover kept fire activity to a minimum.

OUTLOOK:

Arizona, New Mexico, southern Nevada, Utah and Wyoming will be mostly sunny, becoming partly cloudy in the afternoon with scattered showers and thunderstorms in the mountains. High temperatures will be in the 90's to 110 in the southern deserts. High temperatures in the northern valleys and mountains will be in the 70's to 80's.

Western and northwest Oregon, and western Washington will be cloudy and cool with scattered showers. High temperatures will be in the mid 60's to mid 70's, except in the lower 80's in southern Oregon.

Eastern Oregon and Washington, northern Idaho and western Montana will be partly sunny with scattered afternoon showers in the mountains. High temperatures will be in the 70's.

Southern Idaho and northern Nevada will be mostly sunny with scattered wet afternoon showers and thunderstorms. High temperatures will be 70's in the mountains and 80's in the valleys.

California will be mostly sunny. High temperatures will be in the mid 50's to 60's along the coast, upper 60's and 70's in the mountains and 80's in the valleys.

Alaska's interior will be mostly cloudy with scattered to widely scattered showers. High temperatures will be in the 60's to lower 70's.
